CEI Evaluation	12/18/2019	Activity Location:	NJ	By:	STATE	Identifier:	001	Person:	SOAS	Suborganization:		Found Violation:	NO
NOC Date:		Citizen Complaint:	NO	Multimedia Inspection:	NO	Sampling:	NO	Not Subtitle C:	NO	Day Zero:	12/18/2019	Focus Area:	
Eval. Notes:	On December 18, 2019, I (Amy Scaffidi) conducted an Annual Class D Inspection (PI #: 1709001436, Permit #: CDU090002) at Monarch Environmental Inc., which is located at 108 E. Lake Road in Woodstown, NJ. A brief tour of the facility was conducted with facility representative Adam Hansell. Facility equipment appeared to be well maintained and housekeeping was satisfactory. Aisle space was found to be adequate on the drum pad (approx. 120 drums). Observed twenty-two roll-off containers filled with material from the pit; these containers were being properly maintained. I observed 5 vehicles on-site which were storing used oil until the PCB analysis arrives back from the lab. The following vehicles are storing used oil on-site: TK 8, TK 64, TK 101, TK 102 and TK 63. Inside the garage there is an upper loft, where two 55-gallon drums of universal waste consumer electronics are being stored. All paperwork was found to be in order; this included but is not limited to: A-901 Update, Annual Fire Extinguisher Inspections, Spill Prevention, Control and Countermeasure (SPCC), Discharge Prevention Containment and Countermeasure & Discharge Cleanup and Removal Plan (DPCC & DCR) which became effective on 3/28/19 and expires in 3 years from the effective date, Liability Insurance (prepared by Acord Corporation, dated 8/6/19), Waste Analysis Plan, Contingency Plan, Community Right-to-Know, Training Records (12/14/19), Integrity testing for the AST's (aboveground storage tanks), analytical packages and incoming and outgoing non-hazardous bills-of-lading. I also reviewed the log books which record the vehicle in which incoming shipments of used oil are being received. These records also include the composite number for each vehicle, so that it can be matched to the appropriate analytical results. No hazardous waste, universal waste or Class D permit violations were noted on this date. However, Monarch remains out of compliance with N.J.A.C. 7:26-3.5(e) - Failure to c												

No Linked Violations

FCI Evaluation	03/14/2012	Activity Location:	NJ	By:	STATE	Identifier:	001	Person:	SOTF	Suborganization:		Found Violation:	NO
NOC Date:		Citizen Complaint:	NO	Multimedia Inspection:	NO	Sampling:	NO	Not Subtitle C:	NO	Day Zero:	03/14/2012	Focus Area:	UOI
Eval. Notes:	A Brief Compliance Inspection was conducted of this Class D Recycling facility. Operations were observed and selected documentation of incoming and outgoing waste shipments and corresponding laboratory analytical results were reviewed. This review addressed waste origins, destinations, volumes, types and profiles for shipments since the last monthly inspection. Comparison of analytical data collected on recycled soils, processed used oil and waste water were compared to non-residential soil standards for landfill disposal, used oil specifications and sewer system limitations respectively. No violations were observed.												

No Linked Violations

Note: Penalty information associated with an enforcement action is reported with the enforcement action. For enforcement actions associated with multiple violations, the penalty information will be reported with each violation, however, the penalty is only assessed once, regardless of the number of violations associated with the enforcement.

No Linked Violations													

Note: Penalty information associated with an enforcement action is reported with the enforcement action. For enforcement actions associated with multiple violations, the penalty information will be reported with each violation, however, the penalty is only assessed once, regardless of the number of violations associated with the enforcement.
